JCR pg. 241: Broadening Options and Opportunities for Students Today

"This language requires MSDE to report by January 15, 2026, on the distribution of the BOOST scholarships; information on the students receiving BOOST scholarships; teacher certifications for nonpublic schools participating in the BOOST Program; and assessments being administered in nonpublic schools participating in the BOOST Program, including student performance. The language also requires that MSDE report on students who choose to decline scholarships or attend public schools after participating in the BOOST Program in the past, along with their reasons for doing so, and information on students receiving scholarships for the 2024-2025 school year who withdrew or were expelled from the nonpublic schools that they were attending. Finally, the language requires that the BOOST Advisory Board shall take into account the special needs of students with disabilities as it is determining scholarship award amounts and that $617,522 of the BOOST appropriation shall be used to provide higher awards for these students."

Background

The BOOST (Broadening Options and Opportunities for Students Today) Scholarship Program provides scholarship awards for some students who are eligible for the free or reduced–price school meals program (FARMs) to attend eligible nonpublic schools. Priority will be granted to students who qualify for FARMs and received a BOOST scholarship award last school year, as well as their siblings.

The BOOST program was authorized by House Bill 350.

The data in this report is as of December 15, 2025.

Notes:

- Final adjusted award may vary to not exceed the tuition after subtracting non-BOOST financial aid.
- Per the fiscal year 2026 Budget Bill (House Bill 350) and decisions made by the BOOST Advisory Board, priority was given to:
  - renewal students and their siblings
  - students who previously attended public schools
  - students who qualify for Free Meals (versus Reduced Meals)
- Students with the lowest incomes are served first.
- High school students receive an additional $3,000 award.
- Students receiving Special Education services receive an additional award equal to the base award.
- To spend down remaining funds, a final batch of award offers was made on December 5, 2025. Due to school closures during the holiday season, there are still some students whose enrollment has not yet been confirmed by the school. The parents, however, have accepted the awards. Certain data points (confirmation of special education status, financial aid being offered to the family, etc.) are not available for these students.
